

12-MONTH EUROPEAN VOLUNTARY
SERVICE PROJECT

PIECE OF MY HEART

6 international volunteers in Gyöngyös, Hungary, from July 2019

WHO ARE WE?

Description of the host organisation

Association Co-Efficient (Együttható Egyesület) was founded by social professionals and enthusiastic young volunteers in 2010 to promote non-formal learning, innovative community services and a new way of thinking in youth and social work. We have a youth office in Budapest and an afterschool „Impactpoint” (HatásPont Tanoda) in Gyöngyös, 80 km from Budapest. The afterschool was founded in 2014 and offers afternoon activities for around 30 students with a disadvantaged background. **This is where this EVS project will take place.**

WHY GYÖNGYÖS?

Gyöngyös is a small town in North-East of Hungary, situated at the foot of the Mátra mountains. It has a population of around 30 000 inhabitants. Some of them live in segregated areas where the maintenance of public areas and services (piped water, playgrounds, other infrastructure) is limited.

Our afterschool in the centre of the town is an oasis for local children and young people. It is an inclusive environment: children of different ethnic origins, young people with learning difficulties and disabilities are involved in the activities together.

The participation of 6 international volunteers in the work of the afterschool and other initiatives in Gyöngyös can have a considerable impact on the children, their families and the local community, not to mention the development of the volunteers' skills.

DESCRIPTION OF THE PROJECT

Piece of My Heart, a long-term EVS project in Gyöngyös, Hungary

duration: June 2019-June 2020

participants: 6 volunteers aged 18-30

The aims of the project are:

- to develop social, communication and foreign language skills of the students in the afterschool and our volunteers
- to increase the involvement of the afterschool in the life of the local community
- creating a diverse programme in the afterschool from young people to young people
- to improve social responsibility and the sense of solidarity of the volunteers by involving them into youth work activities with disadvantaged young people.

Volunteers will have a chance to develop the following skills:

- **Diplomacy and conflict management:** as children often lack effective conflict management skills, volunteers will engage in conflict resolution in the afterschool
- **Organizing skills:** every volunteer can start their own personal project or workshop with the children or involving the local community
- **Adaptability and intercultural knowledge:** volunteers will collaborate with the professional staff of the afterschool and each other. They will learn to adapt to different cultures and communication styles.

These skills and attitudes are relevant on the labour market, especially in the fields of education and youth work.
